

Case Study: 3M

3M is a science-based technology company committed to improving lives and doing business in the right way

The Challenge

With the re-location of their new office from Great Jackson Street to Exchange Quay complex at Salford Quays; 3M required a high-end vibrant office to accommodate staff, playing special attention to branding and a corporate appearance.

The Brief

Cushman and Wakefield tendered Workspace Design and Build and others to create an eye-catching open plan workspace that was bright and radiant to fit in with the company's brand. Workspace were successful in the tender process and began work on the 8 week project.

Our Solution

Workspace were asked to procure furniture and manage the initial project. Working with Kinnarps, 3M furniture partner to deliver the furniture package below budget.

With designer Jennie Godsell of MRL Design, Workspace produced an open plan environment with red colour blocking to give a vibrant feel. Areas included an independent reception area as well as a statement kitchen. The custom-designed environment created an atmosphere that stimulates the occupants of the space and promotes space awareness.
