

Case Study: Eagle Lab Cardiff

Eagle Labs focus is to help Barclays colleagues become the most digitally savvy workforce in the UK. Working alongside and collaborating with like-minded organisations to deliver services, space and activities in creating a prosperous community.

The Challenge

Based at Brunel House, the space is specifically designed around the needs of local entrepreneurs, businesses and communities and tailored to suit Wales strengths in high tech digital and IoT innovation.

The Brief

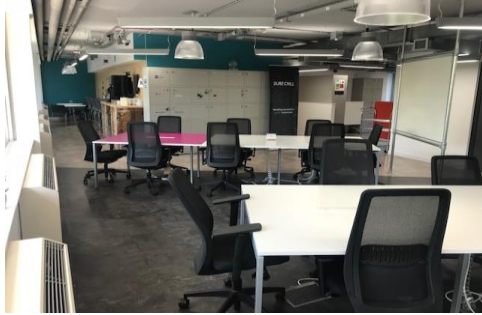

With a co-working concept supported by Barclays bank to assist new and embryonic companies establish themselves.

Our Solution

Workspace Design and Build created a stripped-back modern space with feature lighting.

The space consisted of plenty of exposed concrete and metal features which included upcycling with use of furniture and items of redundant office environment.
